

SKF Scotseals

“The Industry Standard”

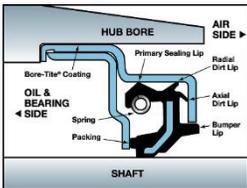

The choice just got better. SKF have a seal for all your Truck and Trailer applications, Oil or Grease.

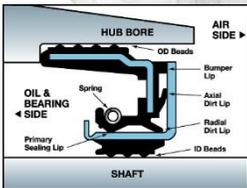

Classic

Coated with Bore-tite to seal and protect wheel end. Consists of 3 lips that is pre lubed at factory. Unitised design providing a perfect running service for extended seal life.

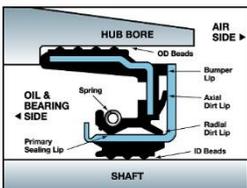

Longlife

High temperature advanced seal design for excellent performance in harsh environments and high braking conditions. Consists of 4 lips that is pre lubed at factory suitable for extreme conditions.

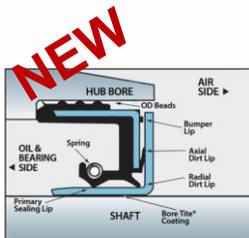

Pro

Hand fit 4 lip seal for the price conscious. Ideal for trailer application, either oil or grease lubricated.

Plus XL

High temperature, excellent performance and low cost per Km performance. Consists of 4 lips with a patented Wave seal design for lower temperature running.

Hybrid

A semi unitized 4 lip seal designed specifically for Trailer applications. Installs directly onto spindle and has a high temperature capability. (Use tool #491)
