

O30050

Oil Transfer Kit with Meter

September 2019

The Alemlube EL Series O30050 Oil Transfer Kit with Meter is the ideal oil transfer kit for dispensing oil with a maximum viscosity of SAE130.

Representing excellent value for money, the Alemlube EL Series O30050 gives you the opportunity to upgrade from standard hand operated oil drum pumps to a pneumatic solution.

Delivering up to 10L/min with a 3:1 ratio pump, the O30050 is suitable for use with 205L oil drums to perform intermittent or seasonal work.

The electronic oil meter features a 5 digit liquid crystal display, a low battery indicator as well as Reset and Move buttons.

Smart design with fewer working parts effectively facilitates a lower cost of ownership and the meter is powered by one easily and quickly replaceable 3V CR2 battery.

With spare parts readily available around the country and our own factory trained technicians available to provide after sales service support the O30050 is ideal for small to medium size workshops moving low to medium volumes of oil daily.

SPECIFICATIONS, FEATURES AND BENEFITS

- Double acting pump with a differential air motor ensures smooth and constant oil delivery
- Smart design with fewer moving parts
- Delivers up to 10L/min
- Maximum operating pressure of 450psi (30bar)
- Maximum oil viscosity of SAE130
- Oil control valve with meter
- Air consumption of 3.6cfm at 150psi
- 1/2" BSP(m) oil outlet
- 1/4" BSP(f) air inlet
- Inlet filter protects against foreign particle contamination
- Tested to 600,000L
- Noise level of 82dB
- Saves time and increases productivity
- Low cost of ownership
